**Subject:** Questions on status update for Navy-Northrop Grumman  
**Attachments:** NWIRP-NG RA QA - Draft 2 (5-28-19).docx

Good morning Jason - I look forward to the upcoming Roundtable Meeting tomorrow. Attached is a brief draft Q&A sheet for my mgmt, updated from a previous fact-sheet that Lorenzo had provided to me. If you have the chance, please drop me a line with a brief update on the following. I might also give you a call later today:

- a. RW-21: Do you know the current status of NG's acquiring the property for completing the g.w. extraction and treatment system for this area?
- b. Former Grumman Settling Ponds (ballfield): I don't recall the approximate time-frame for completing the thermal treatment. Also, my recollection was that there would be remediation of PCB-contaminated soils after VOC treatment. Please verify if this is correct. Thanks.

Also, congrats on the public noticing of the draft amended ROD.

Thanks again,  
Carol
